Fictional sample CV for the Claude Agent SDK challenge. The person, employers and university are made up.

Marketing analyst moving into AI

PROFILE

Marketing analyst with 4 years' experience turning campaign and customer data into decisions. I've recently been using LLMs to speed up reporting and customer feedback analysis, and I'm looking for a junior role where AI is part of the day job, not a side project.

EXPERIENCE

Marketing Analyst · Pennine Outdoor Co. (e-commerce, 120 staff), Manchester

Jan 2023 to present

- Responsible for weekly performance reporting across paid search, paid social and email (£1.2m annual ad spend).
- Rebuilt the marketing dashboard in Looker Studio on BigQuery; cut the Monday reporting job from about 4 hours to 30 minutes.
- Used the OpenAI API in a Python notebook to tag 6,000 product reviews by theme; the top three complaints fed into the 2025 product roadmap.
- Helped the CRM team run 14 A/B tests on email subject lines and landing pages.
- Write a monthly insights summary for the leadership team.

Junior Data Analyst · Brightwater Housing Group, Salford

Sep 2021 to Dec 2022

- Maintained SQL queries and Excel reports on repairs and tenant satisfaction for 3 regional teams.
- Worked on cleaning and merging two years of survey data (about 9,000 responses) for an annual board report.

Retail Supervisor (part time) · Fernway Books, Manchester

2018 to 2021

- In charge of rotas for a team of 8 and handled stock reporting.
